TECHNOLOGIES

C#, Java, Bash, JavaScript, SQL Server, Node JS, React, Express JS, Kotlin.

LANGUAGES

French (Basic), English.

ACTIVITIES

3D Animating, Photoshop, Fishing, Gardening.

John Abbott College computer science student

Skills

I am a programmer who consistently documents most, if not, all functions/methods written, and I make my code easy to read in general.

When in a team, I'll often look at what my teammates have done so we keep the code consistent and help each other if needed.

I learn new things quickly, and I generally tend to work faster while under pressure, making deadlines effective.

Education

- John Abbott College computer science student (2021 - 2024 expected).
- Macdonald High School student (2016 - 2021).
 - o Participated in the Robotics Club in the website team.

Work Experience

- Club Atlantide groundskeeper: maintained the course.
- Tenaquip warehouse worker: picked items to be packed, helped packers get items to be packed.
